Java Dictionary
Project Requirements

Technical Requirements - MVP

Any items marked incomplete in this section will require you to use your one redo to re-submit them. Your app must fulfill the below requirements.

	Complete?
Load a dictionary from a text file containing word information.	
Save the updated dictionary back to the text file.	
There is a runnable JAR file that allows users to download and run the project.	
Allow users to do the following:	
Add new words and definitions to the dictionary.	
Remove words and their definitions from the dictionary.	
Search for words and display their definitions.	
Update the definitions of words.	
Close the application.	
Display a history of past user actions.	

Additional Requirements - MVP

Four or more items marked incomplete in this section will require you to use your one redo to re-submit them. Your app must fulfill the below requirements.

	Complete?
Find all words starting with a given string.	
Find all words ending with a given string.	
Find all words containing a given string.	
Find all words where the definition contains a given string.	
Add additional definitions (secondary, tertiary, etc.) to a word.	
Display an alphabetically sorted list of all words.	

Code Convention Requirements

More than two items marked incomplete in this section will require you to use your one redo to re-submit them. If two or fewer items are marked incomplete, the project is considered passing. Your app must fulfill the below requirements.

	Complete?
The files in the app are organized following the conventions demonstrated in lectures.	
The code in the app adheres to coding conventions covered in lessons, like using plural names for arrays.	
The app does not contain dead code, commented-out sections, or console logs.	
The app is appropriately broken down into classes and functions with distinct roles.	
The app can be used without encountering errors, and appropriately uses error handling.	
The app is coded using proper indentation.	

UI/UX Requirements

Any items marked incomplete in this section will require you to use your one redo to re-submit them. Your app must fulfill the below requirements.

	Complete?
The app's menu is easily navigable by a first-time user.	

Git and GitHub Requirements

Any items marked incomplete in this section will require you to use your one redo to re-submit them. Your interactions with Git and GitHub must fulfill the below requirements.

	Complete?
You are shown as the only contributor to the project on GitHub.	
The GitHub repository used for the project must be named appropriately. For example, names like dictionary-application or wellness-tracker are appropriate, whereas ga-project is not. The repo must be publicly accessible. *Be sure to create the repo on your personal GitHub account and ensure it is public.*	
Your repo should have commits that date back to the very beginning of the project. If you start over with a new repo, do not delete the old one.	
Commit messages should be descriptive of the work done in that commit.	

README Requirements

More than two items marked incomplete in this section will require you to use your one redo to re-submit them. If two or fewer items are marked incomplete, the project is considered passing. Your README must contain the items or sections below.

	Complete?
Screenshot/Logo: A screenshot of your app or a logo.	
Your app's name: Include a description of your app and its functionality. Background info about the app and why you built it is a nice touch.	
Getting started: This section should include instructions on how to use your app. It should also contain a link to your planning materials.	
Attributions: This section should include links to any external resources (such as libraries or assets) you used to develop your application that require attribution. You can exclude this section if it does not apply to your application.	

	Technologies used: List the principal technologies used by your application, for example: Java and any major frameworks or libraries.	
	Next steps: Planned future enhancements (stretch goals).	

Presentation Requirements

Any items marked incomplete in this section will require you to use your one redo to re-submit them. Your presentation must fulfill the below requirements.

		Complete?
	Present your project in front of the class on the scheduled presentation day.	
	The project you present is the project you were approved by your instructor to build.	

Summary

Project meets minimum requirements and passes.
